Abortion is the leading cause of death in Minnesota.

Some leading causes of death in Minnesota.

Abortion Deaths 9,903

Stroke Deaths 2,051

Heart Disease Deaths 7,671

Cancer Deaths 9,603

Motor Vehicle Deaths 464
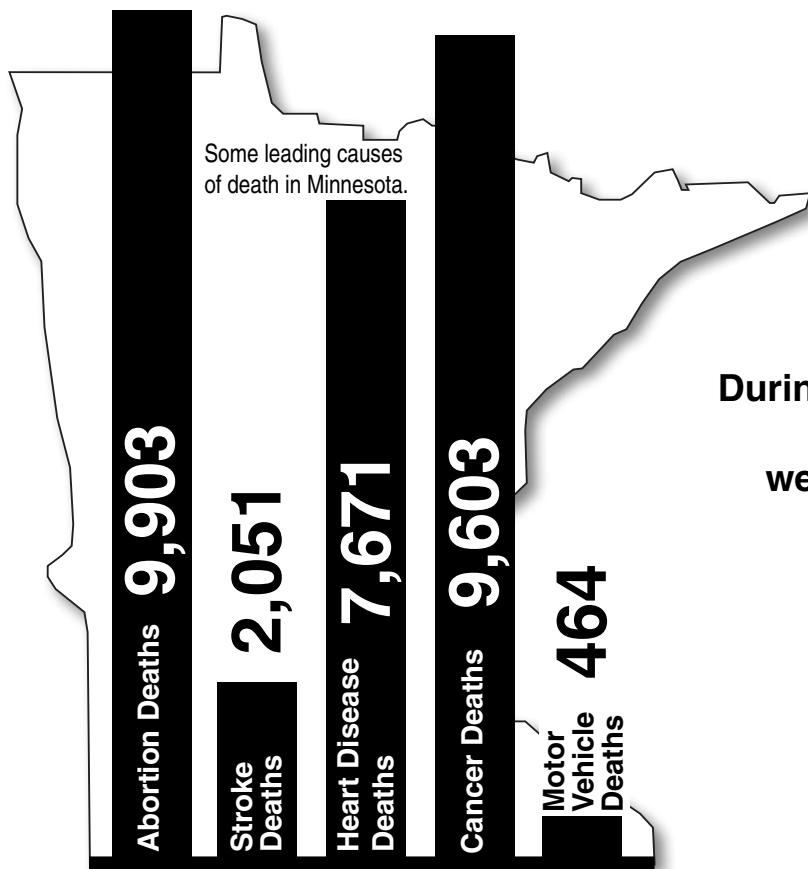

During 2013 in Minnesota, 9,903 unborn babies were killed by abortion, more than any other cause of death.

Source: Minnesota Center for Health Statistics

Abortion is not a disease and it's not an accident. It's the deliberate taking of a human life. Unlike other causes of death, abortion is 100% preventable.

We're working to prevent abortion by changing the law and by helping women choose life rather than death for their babies.
