

IT'S NOT EQUAL RIGHTS.

The dangers of the “Equal Rights Amendment” in Minnesota

State legislators in 2024 are proposing a so-called “Equal Rights Amendment” that Minnesotans would vote on in November (or in the subsequent election). Proponents plan to add abortion and other language to the amendment so that it would:

- **Guarantee a right to abort any baby for any reason, at any time, right up to birth**
- Deny parents the right to know when their minor daughter undergoes an abortion—or other dangerous medical procedures
- **Enable sex traffickers to hide from parents and law enforcement and subject their victims to forced abortions**
- Make unlimited abortion the permanent law of the land in Minnesota—despite the harms to women and children

This is exclusion, not equality. The “Equal Rights Amendment” would DENY rights to:

- All living human beings who haven't yet been born
- Unborn babies who are developed enough to survive outside the womb
- **Unborn babies who are developed enough to feel excruciating pain**
- Parents of minor children
- **Taxpayers who don't believe they should have to pay for abortions**

Tell your legislators to VOTE NO on the so-called Equal Rights Amendment.
